Dear Titus Detwiler:

Congratulations! Your application to become a Licensed Firestone Contractor has been approved for the system(s) listed below. We welcome you as a member of the select group of contractors authorized by Firestone to install our warranted systems for the following material type(s):

FS Licensed EPDM Roofing

FS Licensed Thermoplastic Roofing

FS Licensed Daylighting

FS Licensed Garden Roof

FS Licensed SkyPavers

FS Licensed Metal Roof Coating

FS Licensed Asphalt Roofing

Please note the following:

- 1 Your Firestone License license number is listed at the top of this letter. This number is important, and will be used whenever you are corresponding with Firestone.
- 2 You will receive a separate notification containing information for registration to enter a Pre-Installation Notice (PIN).
- 3 Visit the Firestone website to view and download the most up to date product, technical and installation information and details, gain access to the newest technical applications, as well as order literature and samples.
- 4 While at the Firestone website, please sign up for E-Bulletins. These bulletins communicate the latest Technical, New Product, Marketing, and Warranty information and policies to our contractors.

Job Start Training Available

In order to make sure you and your crews are completely familiar with the correct application of our products and flashing details, we recommend JOB START (pre-job) training, prior to the start of your first warranted project. We want to train your crews, so you meet our warranty requirements and fulfill your obligations to the owner. Training prior to the job start is a way for you and your crew to get some helpful application tips to install the highest quality jobs at a faster pace. You can request job start training through the Firestone PIN site. Please submit your request for job start assistance a minimum of 14 days prior to beginning your first project.

For any questions you have regarding your account please contact your Firestone Sales Representative:

Nick Shivery

Phone: +14107372100

Fax: +18005422729

Email: Nick@acpllc.com

Our contractor partnerships are based on quality products, quality services and quality installations. On behalf of everyone at Firestone, we look forward to building this partnership with you.
